

CHARITIES NETTED \$600 FROM JUNK

Local Dealers Bid For Below New York Firm on Waste.

Contrary to a somewhat general belief the Associated Charities in its sale of the collection of junk, composed principally of bottles, rags, iron and waste, to the Harrison Co-operative Service of New York realized more than it would have secured had the sale been made to local concerns.

A telegram to the Associated Charities announced that the sale of the material was made at a price of five and one-half cents a pound. The material weighed 40,000 pounds and brought \$2,000. The cost of collection was \$1,500, divided as follows: Five wagons \$110; day labor \$140; five men with wagons \$275; six boys with each wagon \$95; and 30,000 bags \$100. Added to the total cost of \$1,510 for collection was \$400, or one and one-half cents, for the Associated Charities, on each pound.

From the sale price of \$2,000, the Associated Charities deducted \$600 and \$1,510 was deducted for collection, leaving the Harrison company a net profit of \$90.

Had the Associated Charities accepted the bid of H. Blockman & Co., at \$4.40 per hundred it would have realized \$275. Had it accepted the bid of the United Iron & Metal Co. at \$4.50 it would have realized \$220. Had it accepted the bid of the Tennessee Bottle & Junk Co. at \$4.65 it would have realized \$175. Had it accepted the bid of M. Cohen & Co. at \$5 it would have realized \$120. Had it accepted the bid of Kanner Brothers at \$5 cents a pound it would have lost \$225. Had it accepted the bid of the Sanitary Wining & Bag Co. at \$2 per 100 pounds the charities would have lost \$710. All bids were made on a basis of material f. o. b. cars.

Coussens Influenza Capsules are made of "Sally Kaffee" or Coffee Quinine. They kill the germs and prevent pneumonia.

SUSPENDED OFFICER'S CASE CONTINUED

Hearing of charges against Patrolman H. S. Vincent, suspended, was continued until 4 o'clock Thursday afternoon, when his case was called before the police commissioner and chief Wednesday. New evidence in Vincent's favor, it is understood, will be presented when the case is reopened.

Dan Peoples, railroad man, who was arrested Monday night, on charges of shooting inside the city limits and carrying a pistol, was held to the state on both charges, when City Judge Barker heard the evidence against Peoples in court Wednesday afternoon.

Vincent was suspended when the proprietor of the New York Cafe, 217 McLeure avenue, complained that a policeman had refused to arrest Peoples, when he claimed the latter fired five shots into the ceiling of his restaurant Sunday night. Vincent claimed he was not the officer, but he stood suspended until the case is finished, by order of the commissioner, who also ordered Peoples arrested Monday.

Peoples claimed that the shots were fired by four men from Oakland, Miss. The grand jury will investigate the charges against him Friday. Meantime he is out on bond, which he furnished as soon as he was bound over.

LOCAL FLYER SETS RECORD IN TEXAS

Capt. Cecil Sellers Pilot in El Paso-Douglas Quick Trip.

Records for flight between El Paso, Texas, and Douglas, Ariz., were shattered Wednesday when Capt. Cecil Sellers, Memphis aviator, and a companion flyer made the trip in one hour and 23 minutes, according to dispatches received here Thursday morning. The distance is 220 miles.

Capt. Sellers is a well-known local boy. He was a star on the Central high school football team six years ago, later attending the University of the South, at Sewanee, where he gained additional gridiron laurels. Capt. Sellers volunteered in the aviation corps, trained in Virginia and later at Texas flying fields. He served a year in France in the bombing section and was several times decorated.

On returning to Memphis about 12 months ago he decided to remain in the army and was stationed in Texas. Capt. Sellers' companion was Lieut. George Taber, unknown to local aviators. The report made no mention of the kind of plane used by the pair, but the time proved highly interesting to Memphians who served in the flying corps.

Included in Capt. Sellers' decorations was the cross of the Legion of Honor, awarded by France and one of the very few brought back to this country, and the distinguished service medal.

ALCOHOLIC BLUES.

Hopeful alcohol burglars were disappointed Wednesday night, when they made a second trip to the Dean-Lilly Coffee and Spice company plant, 14 North Front street. They got inside the building, but failed to find any grain alcohol. If it will ease them any, the police report says they didn't find alcohol because there was none in the building.

The largest single piece of ambergris known to whaling anglers weighed 730 pounds and sold for \$100,000.

READY FOR EXAMS NO, SAYS JONES

Dates for Tests Depend on Lifting of Closing Order.

Through some misinterpretation of orders issued by Prof. Wharton S. Jones, superintendent of city schools, principals at several institutions Thursday morning prepared to hold examinations of some pupils. The report on reaching the board of education headquarters in the Goodwyn institute created something of a furor. Prof. Jones seated himself at the telephone switchboard and for 30 minutes in a busy and not altogether quiet manner made it known to heads of the various grammar schools that positively no exams were to be held.

How the report started Prof. Jones was at a loss to know, but quite a number of principals had made preparation for tests. None was held, however. Such examinations as are scheduled will take place when the ban closing schools on account of the flu has been lifted. No decision has been entered on as to whether graduation exercises at Central high school and other institutions will be held or diplomas merely presented. Settlement of the question also depends on the lifting of the closing order.

Registration of pupils for the spring semester at Central high school has been set for Friday, according to instructions issued Thursday by C. P. Jester, principal. The following hours have been arranged:

Present 11-25 and 12-16 from 10 a.m. to 11 a.m.; present 10-25 and 11-16, 11 a.m. to 12 m.; present 9-25 and 10-16, 1 p.m. to 2 p.m.; present 8-15, 2 p.m. to 3 p.m.

All now 2-15 will report at the school auditorium at 9 o'clock Monday morning.

BROKER SENTENCED.
NEW YORK, Jan. 23.—George Graham Rice, whose stock promotions have been given attention by courts several times in recent years, was sentenced today to serve three years in Sing Sing for grand larceny in appropriating \$721 sent him by a customer to buy stock.

MORE MILLS NEEDED.
CHICAGO, Jan. 23.—More mills are necessary to relieve the present world shortage of newspaper paper and the mills can't be built in less than two years, W. P. Hinton, of Winnipeg, vice-president and general manager of the Grand Pacific Trunk railway, said here today.

DRILLER KILLED.

MONROE, La., Jan. 23.—Reports which reached here today from Baton Rouge told of the death there last night of Joe Berreby, oil well driller, and his six-month-old baby from burns received when an oil stove exploded. Berreby filled a kerosene oil stove with gasoline. The explosion wrecked the house.

The five great rivers of Central Europe are all born in the Alpine glaciers.

NEW SOUTH SYRUP

For Children
Give children New South Syrup. It is pure sugar cane juice boiled to the syrup consistency, with nothing added, nothing subtracted. Pure syrup is the kind of syrup that children should have. It is good food for their growing bodies. New South Syrup is economical, too. It saves butter, and takes the place of meat.

Heat all rooms alike \$118

Gives you a lifetime of low-cost heating

New IDEAL-Arcola Radiator-Boiler

The IDEAL-Arcola is one of the world's newest and greatest of inventions. It is unique—being both a Boiler and a Radiator. Takes the place of a parlor stove, and distributes heat to the rooms, and through its water-jacket conveys the excess heat to connecting AMERICAN Radiators stationed in adjoining rooms. There is no coal-waste! Unlike stoves and hot-air furnaces, the IDEAL-Arcola with its water-backed surfaces does not burn out or rust out—it will easily outwear the building in which it is placed.

Heats the most and costs least!

The Arcola and the AMERICAN Radiators are made in sections or units and can be increased or decreased in size (Note that 65% of all buildings are altered in size.) Legs cannot be kicked out, as with stoves—hence no fire-risk to building. Does not overheat—hence no danger to children. The soft, radiant, healthful, clean warmth changes a house into a home.

The Arcola may be painted or enameled in any shade or color to match woodwork or decorations. It is not obtrusive like a stove but may be painted to harmonize with any furnishings.

Shipped complete ready to operate

The beauty of the IDEAL-Arcola method is that no cellar is needed. Everything is on one floor. If there are two or more tenants in the building, each can have his own Arcola and make the temperature to suit his own needs—can make his own climate! If you do not wish at first to heat the entire building, buy a small size IDEAL-Arcola and one or two radiators (at prices lower than herein given) and later on buy extra sections for the IDEAL-Arcola and two or three more radiators to warm more rooms. Investigate at once this greatest value in building equipment.

Catalog showing open views of houses, individual flats, stores, offices, etc., with the IDEAL-Arcola Boiler in position will be mailed (free). Write today
